

# Summer Intern Position

Interested in Livestock Nutrient Management?  
WSU Puyallup Research and Extension Center

Spend the summer in western WA gaining experience in dairy nutrient management!

Would you like to learn about dairy nutrient management and current nutrient management issues? There is an opportunity available to be a part of multiple research projects occurring in Puyallup, WA. Responsibilities would include data collection from forage, manure, soil and water, applied laboratory analyses and data management. If you are eager to learn more about this exciting opportunity, please send your resume to Liz Whitefield at
